## SUMMARY

---

Motivated student of cybersecurity engineering with more than two years of hands-on experience in ethical hacking, system defense, and networking. Passionate about learning, breaking things down to understand them, and building solutions that actually work. Known for leadership, responsibility, and the ability to grow through real challenges in tech, business, or teamwork. For more, visit my website. [click here](#).

## EXPERIENCE

---

<b>Summer Job (Import/Export – Gym Supplements):</b>	Aug 2021
Discovered how businesses operate, handled simple tasks, and learned early teamwork and responsibility.	
<b>Office Assistant (Desk Job)</b>	Aug 2022
Assisted the team with daily operations, supporting administrative and basic technical tasks.	
<b>Digital Coordinator</b>	Aug 2023
Acted as the link between the company and their freelancer web developer. Suggested website improvements, managed digital marketing, edited videos, and handled social media posts.	
<b>Clothing Brand Co-Founder</b>	Dec 2023 - Aug 2024
Built a limited-drop clothing startup (hoodies, gymwear). Even though the project didn't scale, it strengthened my creativity, branding skills, and resilience.	

## PROJECTS

---

### Clothing Startup

Designed, branded, marketed, and produced physical products. Learned marketing, pricing, e-commerce, and customer interactions.

**Smart Partner Digital Upgrade** [Link to the Website](#)

Improved the website, supervised freelancer updates, created content, and optimized the digital presence.
